Awesome telegram bots

Telegram is an expanded platform known for its security, message delivery speed, and many development benefits that make communication fun. One such benefit is chatbots that are available 24/7 and can deliver a lot of useful information overnight. There are already a large number of bots helping people get information on a wide range of topics. In this post, we'll see the best chatbot telegrams that can be offered in 2020. Get ready for some inspiration! Examples of telegram boats #1: Eddy Tourism Industry: Travel purposes: finding flights, hotels, and restaurant Name: @EddyTravels_bot This is one of the best Telegram boats for tourists. Powered by Skyscanner, it helps users discover the best deals for flights, accommodation, and places to visit. Just choose a destination or choose the option of taking me everywhere to get inspired. If you search for a flight or hotel, it will take you the top three results or offer links to Skyscanner for more options. For a place to visit, it will open a place on Google maps. Eddy Travels boats find a Boat coffee shop saving your location so you don't have to go through the same scenario again and again. It also has an online order: to use it, type/flight, /hotel, or/place to get the categories you need. Benefits for users: everything you want to know about specific destinations in your messenger. Bot developers claim to use machine learning and other magic software to bring the most relevant search results. Benefits for businesses: in addition to bringing value to customers, this Telegram chatbot attracts free referral traffic to Skyscanner and other partner websites. Examples of #2 telegram bots: Skeddy Industry: personal efficacy purposes: remind about the list to perform or event name: @SkeddyBot This bot is a help to those who are always late or forget things in a while. Here you can make a simple reminder simply by sending a message bot like taking Mary at 10pm or even a continuous schedule craft complex like drinking a glass of water every two hours. Simple reminder setup with Skeddy Bot Perk for users: allows you to make reminders in the wind and always on time. Benefits for business: at first glance, such Telegram bots don't have a direct business utility, but they can work as a useful piece of branded content. Consider creating something small and useful – and so, people will interact with your brand every day. These bots in particular can also share links on how to improve time management and provide traffic to blogs or websites. Examples of telegram bots #3: Asos Help bot industry: ECommerce Purpose: helping users Product prices and save product names: @AsosHelperbot Asos is one of the largest retailers worldwide. Depending on the country and currency you choose when placing an order, the price will vary. Bots help compare prices across all Asos websites and choose the lowest price for a given product. Price comparison from Asos Helper boat Perks for allow users to save money or make better decisions. Benefits for business: such chatbot mechanics can be used by eCommerce companies to allow their users to compare many things like pricing, brands, venues, or materials. This method can facilitate purchases in the consideration stage, and help people make better decisions. Ready to create a chatbot? Design and prepare Facebook or Telegram chatbots without the need for code with SendPulse. Create message flow including not only text, but images, lists, buttons with links, and more. Sign up and launch your first example of chatbot Telegram boat #4: VoteBot Industry: any Purpose: creating a poll name: @vote this bot helps create polls and share them in groups or channels. You can add two or more answer options. Voting can be public or anonymous. Making a vote with VoteBot Benefits for consumers: boats allow people to express their opinions and engage with groups even if they are not prepared to chat. Benefits for business: it allows engagement from members of your group or channel. For example, some IT companies make polls on the characteristics of new products such as: What should we do next? or How do you like relief? Making a vote is a great way to show that you're customer oriented and listen to your users. Examples of #5 telegram bots: Yandex.Translate Industry bots: search purposes: translating messages to several name languages: @YTanslateBot this bot helps translate messages to any language and allows users to chat with people from all over the world. It's very friendly and intelligent: just set your native language and target - and tada! Translating messages with Yandex.Translate Bot Perks for users: it's easy to set up and use, no need to leave messengers to search for words in the dictionary. Benefits for business: this bot is made by a Russian search engine company and is a great attempt to raise brand awareness internationally. Examples of #6 telegram bots: Zoom Industry: any Purpose: creating the zoom meeting name: @zoom_us_bot Here's another example of a Telegram bot created by big brands to facilitate their customers' travel. Zoom is a video conferment application. Bots for Telegram can be added to your contact list and help you create or join meetings at the scene. Creating a meeting using the Zoom Perks Telegram bot for users: it's easy to create and join meetings. Boats can also be added to group chats and deployed for each member. Benefits for businesses: This way Zoom allows remote teams to make accurate video calls in their chat groups. Other businesses can use the same mechanics to register subscribe to users.
